

SINTAN IP project of the year 2016-2017

We were very happy to get a message from The Diaconate of the Protestant Church in Bierum-Holwierde-Krewerd (small villages in the northern part of the Netherlands), that SINTAN IP had been chosen to be their project of the year 2016-2017.

The sale of flower bulbs has been the first fundraising activity of the Diaconate. This happened at the annual fair in the village of Holwierde at the end of August. Many volunteers, including the vicar Gerard Knol, managed to sell their products as professional traders. Apart from flower bulbs they sold craft articles under which handmade cards.

Hans van Luijk and Hilde Kiers were invited to sell Tanzanian products to promote SINTAN IP.

Official start of the church year

On September 11 the official start of the church year took place in the Sebastian Church in Bierum. We were invited to introduce our Foundation and inform the congregation about our activities.

A huge thank you to the Diaconate of the Church Bierum-Holwierde–Krewerd!
